Oil spill remediation—contain, protect, Clean-up with Mycelx™

Centek Industries offers a complete line of oil spill remediation products to contain, protect and clean-up oil spills. The Sheen Devil™, Terraguard™ and Versimat™ are infused with patented Mycelx™ which binds on contact with hydrocarbon pollution and does not absorb water.

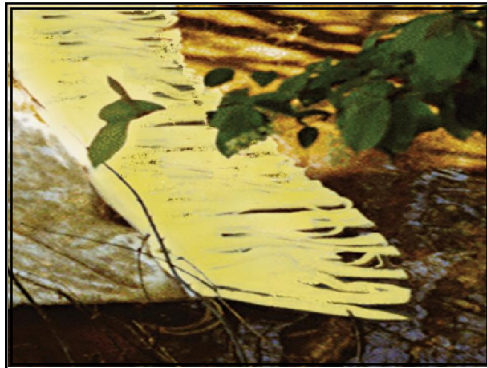

Contain—Sheen Devil™

Contain and remove oil from water surface

- 10 foot interconnecting sections Infused with Mycelx—capture oil, not water
- Span bodies of water or deploy between two vessels
- Product: 8-SD1

Protect—Terraguard™

Stop and absorb oil before it reaches the shore line

- Absorb bulk amounts of oil above and below water surface
- 10 foot interconnecting sections
- Effective in rough water and unaffected by tidal movement
- Product: 8-TG1

Clean-up—Versimat™

Absorption of light and medium oils including crude oil

- 55" x 10' size allows over 45 square feet of contact area
- Design allows connection to other 10 foot sections and can be used as a sweep
- Depending on use, oil capacity 60-120 gallons
- Product: 8-VM1
